

AEA NODE

Remote Access Gateway

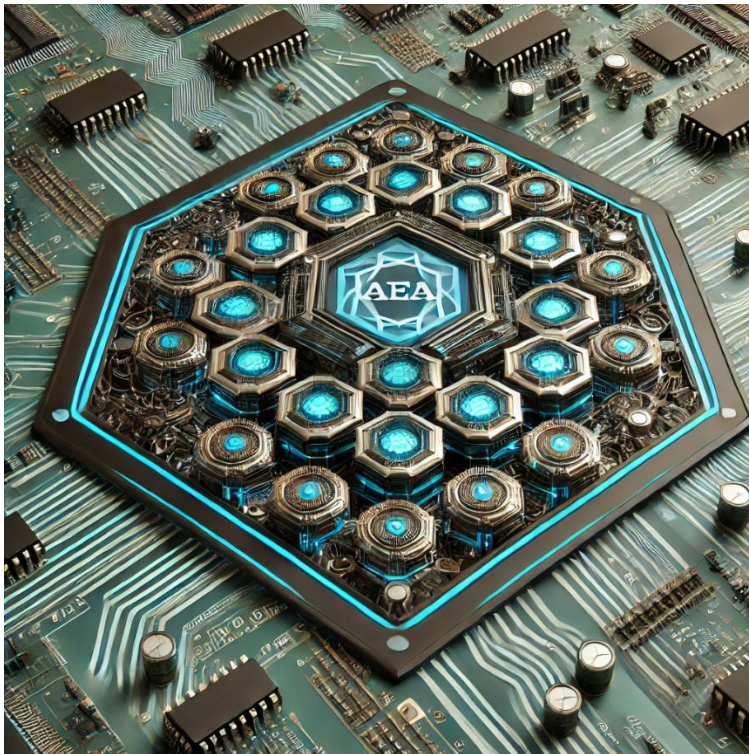

Introducing the AEA Node & Hive

The Future of **Portfolio** Automation

Product Overview

The AEA Node¹ is a state of the art building automation device designed to centralize control over your building systems while providing unmatched flexibility and scalability. Whether you're managing a single property or a portfolio of buildings, the AEA Node offers a robust solution that integrates seamlessly with existing Building Automation Systems (BAS).

Key Features

Centralized Control: The AEA Node enables comprehensive control of HVAC, lighting, security, and other critical systems from a single interface.

Scalable Architecture: Easily adapts to the needs of any property size, from small commercial spaces to large industrial complexes.

Seamless Integration: Compatible with major BAS platforms like Tridium and Lynxspring, supporting protocols such as BACnet, ModBus, and other industry standard protocols.

Why the AEA Node?

Advanced Customization: Unlike competitors such as Niagara Remote, the AEA Node supports Workbench and commissioning level connections, allowing for deep system customization.

¹ Patent Pending

Energy Efficiency: Real Time monitoring and optimization features help reduce energy consumption and operational costs across multiple sites.

Universal Adaptability: The node operates under the Internet of Things Access Protocol (IAP) as defined by the ANSI/CTA 709.10 standard. This provided unparalleled functionality and operability, allowing the node to bridge any automation gap.

Proven Successes: Atlantic Realty Company, Beltway Property Management, Clarendon Courthouse, DC Central Kitchen, Dominion Fertility Clinic, DR Horton Capital Division, Eastern Point Services, Elizabeth House, Faith Lutheran Church, Gables Union Market, GSA Artwork Storage, Idaho Terrace Apartments, Metro Access Center, The Point (River Point), Stone Haven, Mont Eagle Products, 440 Pennsylvania Ave, Newark Property Management, and miscellaneous Defense Contractor locations.

Get Started Today!

Experience the future of building automation with the AEA Node. Contact us for a demo or to schedule a consultation tailored to your specific needs.
